

## SCIENTIFIC ALLUSIONS IN SCRIPTURE...

Dr. Henry Morris of the Institute for Creation Research has compiled an impressive list of allusions to scientific principles in Scripture. This list actually demonstrates that a matrix of scientific principles underlies the body of Scripture. These principles were not known to the leading minds of the day in which they were written; in fact, many of them contradicted what was being taught at the time. Such a list confirms that the Scriptures are scientifically credible. It further confirms that the Scriptures were supernaturally inspired.
